

## REASONS TO SPONSOR

[www.RIMSWesternRegional.com](http://www.RIMSWesternRegional.com)

The RIMS Western Regional Conference is a premier risk management event, setting the standard for excellence in risk control and optimization. We are pleased to offer sponsorship opportunities for the 2026 RIMS Western Regional Conference, hosted by the Washington RIMS Chapter.

The Western Regional Conference offers a limited number of sponsorship opportunities, providing exceptional visibility to both current and prospective clients. The conference delivers actionable, practical content tailored to risk and safety managers from medium and large organizations, insurance professionals across the public and private sectors, financial professionals, and auditors. With attendance typically ranging from 400–600 registrants, the Western Regional Conference is a premier platform to educate, connect, and network with an influential and highly engaged group of industry leaders.

The Western Regional Conference focuses on the needs of middle management and above. Most conference attendees are company decision makers. We are expecting over 450 registrants with a venue that can accommodate over 500.

- The invitation list exceeds 18,000 individuals.
- Attendees repeatedly include marquee company executives (Amazon, PACCAR, Expedia, Boeing, etc.)
- The past 3 years' attendance averaged at least 40%+ corporate risk managers.

## Why Washington State Is a Strategic Hub for Risk & Insurance Leaders

**Global Headquarters & Major Employers** Home to industry leaders including Microsoft, Amazon, Boeing, Starbucks, Costco, T-Mobile, Expedia, Alaska Airlines, and Nordstrom, representing complex risk across tech, aviation, retail, and global operations.

**Technology, AI & Cyber Risk Epicenter** A national hub for AI, cloud computing, data privacy, and cyber risk, driven by Microsoft, AWS, Google Cloud, Meta, and Salesforce.

**Aviation, Aerospace & Advanced Manufacturing** Led by Boeing, Blue Origin, and a deep aerospace supply chain, creating sustained demand for expertise in aviation, product liability, and supply-chain risk.

**Maritime, Trade & Infrastructure Gateway** The Ports of Seattle and Tacoma anchor global trade and logistics, driving marine, cargo, and public infrastructure risk exposure.

**Diverse, Influential Risk Buyer Community** Strong participation from corporate, public entity, healthcare, and higher education risk leaders, including organizations like the University of Washington and Washington State Ferries.

**Progressive Regulatory & ESG Environment** Washington often sets early trends in climate, labor, and data regulation, making it a bellwether market for emerging risk issues.
